- **Swap Monthly Report**

Summary

The attached monthly report provides a summary of outstanding interest rate swaps in accordance with Resolution No. 8773, as amended, and Section 5922 of the California Government Code.

Attachment

Attachment 1: Swap Report - July 2010

THE METROPOLITAN WATER DISTRICT
OF SOUTHERN CALIFORNIA

Date: August 16, 2010
To: Business and Finance Committee
From: Brian G. Thomas, Assistant General Manager/Chief Financial Officer
Subject: Swap Monthly Report, July 2010

This letter provides a summary of the interest rate swaps outstanding as of July 31, 2010. These transactions are consistent with Board policy and Section 5922 of the California Government code, and have been executed to reduce debt service costs and reduce duration and interest rate risk.

As approved by the Board, Metropolitan has \$1.40 billion in outstanding interest rate swaps. These transactions and their associated bonds have resulted in \$ 68.6 million in savings through the date of this report. The mark-to-market value of the portfolio is a negative \$159.3 million, reflecting interest rates as of July 31, 2010, which were lower than when these swaps were executed. Net exposure to all counterparties is within Board-approved guidelines. As of July 31, 2010, Metropolitan had \$12.0 million of collateral posted with Morgan Stanley.

Effective July 22, 2010, Metropolitan successfully novated (assigned) four interest rate swaps, totaling \$311,735,000, to Deutsche Bank AG from UBS AG. For a more detailed explanation of the novation, please see page 12, "Recent Swap Activity".

At the August 2008 board meeting, the Board approved \$500 million of interest rate swap authority for the next two years. Staff will continue to monitor the market for opportunities and work with the committee on transactions that meet Metropolitan's policies and financial objectives.

2001 SERIES B SWAP

Purpose of the Transaction:

The 2001 Series B Bonds were issued to provide funds to refund \$167,840,000 of the 1992 Water Revenue Bond issue maturity of 7/1/2019; and \$37,200,000 of the 1993 Series B Water Revenue Bonds SAVRS and RIBS, maturity 10/30/2020. The transaction is expected to achieve net present value savings of \$15.0 million. On June 7, 2007, Metropolitan issued \$218.4 million, 2007 Series A bonds (Auction Rate Securities) to refund the 2001 Series B bonds. Due to the severe market dislocation concerning auction rate securities, the 2007 Series A bonds and all other outstanding Metropolitan auction rate securities were refunded on March 25, 2008 by the proceeds of the \$501.6 million, 2008 Series A bonds. Deutsche Bank AG replaced UBS AG as counterparty effective July 22, 2010. To date, debt service reductions have been \$7.1 million compared to the forecasted reduction of \$13.7 million.

2002 SERIES A AND 2002 SERIES B BONDS & SWAP

Purpose of the Transaction

The 2002 Series A and Series B Bonds were issued to provide funds to refund \$33,700,000 of the 1992 Water Revenue Bond issue; \$46,995,000 of the 1995 Series A Water Revenue bonds and \$36,225,000 of the 1999 Series A Water Revenue Bonds. The transaction was expected to achieve net present value savings of \$9.7 million. To date, debt service reductions have been \$8.0 million compared to the forecasted reduction of \$5.7 million. The forecasted reduction assumed that the 2002 Series A and Series B variable rate bonds would trade at 70% of one-month LIBOR (10 year avg.).

2003 SWAP

Purpose of the Transaction

The 2003 Series C1- C3 Bonds, sold on December 18, 2003, were issued to provide funds to refund \$146,375,000 of the 1996 Series C Water Revenue Bonds and \$151,885,000 of the 1997 Series A Water Revenue bonds. The transaction was expected to achieve a net present value savings of \$21.1 million. On May 20, 2009, Metropolitan refunded the 2003 Series C1 and Series C2 bonds and, on June 10, 2009, Metropolitan refunded the 2003 Series C3 bonds. Due to the refunding of the 2003 C1-C3 bonds, the 2003 Swap will be used to hedge with other series of Metropolitan variable rate debt. Deutsche Bank AG replaced UBS AG as counterparty effective July 22, 2010. To date, debt service reductions have been \$10.2 million compared to the forecasted reduction of \$8.5 million. The forecasted reduction assumed that the 2003 Series C1-C3 variable rate bonds would trade at 70% of one-month LIBOR (10 year avg.).

Recent Swap Activity

Effective July 22, 2010, Metropolitan successfully novated (assigned) four interest rate swaps totaling \$311,735,000 to Deutsche Bank AG from UBS AG. This transaction was completed at no cost to Metropolitan. The only costs paid by Metropolitan are the fees paid to attorneys and Metropolitan's swap advisor. There are three primary benefits of this novation:

- a. The swap documents (ISDA Master Agreement, Schedule, and Credit Support Annex) with Deutsche Bank have more favorable language for Metropolitan compared to the documents with UBS (which were executed in 2001) and are consistent with today's marketplace.
- b. The collateral posting requirements are in Metropolitan's favor, as Metropolitan will not have to post collateral unless Metropolitan's ratings fall to the A- category or below.
- c. Metropolitan will have a more active and responsive counterparty since UBS AG is no longer an active municipal market participant. Deutsche Bank AG is more active in the municipal marketplace and Metropolitan should benefit through more efficient execution and responsiveness.

Staff will continue to monitor the market and work with the Ad Hoc Committee to determine if there are opportunities to reduce interest rate risk and debt service costs. Metropolitan currently has authority to enter into \$500 million of interest rate swap transactions through August 2010.

Collateral Posting

As of July 31, 2010, Metropolitan had \$12.0 million collateral posted with Morgan Stanley.
